

Out of Pocket Pricing:

ST – eval \$175.00, session \$65.00

OT – eval \$200.00, session \$75.00

Feeding – eval \$200.00, session \$85.00

If paying **Out of Pocket**, each session is charged, no matter how many times a week the child is seen or for what discipline.

Example:

ST – 2 x's per week = \$130.00

OT – 2 x's per week = \$150.00

ST – 1 x per week AND OT – 1 x per week = \$140.00

Insurance Pricing:

The patient has to pay **Out of Pocket** prices (see above) UNTIL they meet their deductible. Once the deductible is met, the patient pays their *copay or *coinsurance.

* we let them know what that will be when we run the insurance, as long as the insurance company gives us that information – sometimes they don't

Visits:

If the child has met their deductible and paid their COPAY or COINSURANCE, we can see that child multiple times per week, only taking ONE copay for that week. It has to be the same discipline.

Example:

ST – 2 x's per week = ONE COPAY

OT – 3 x's per week = ONE COPAY

ST – 1 x per week and OT – 2 x's per week = ONE COPAY for ST and ONE COPAY for OT
